## ABOUT THE USER MANUAL

This contains a description of the user manual of my application Quest Board Fire.

## ABOUT THE APPLICATION

Quest Board Fire tackles UN SDG 8 which is decent economic growth. My application is like a game with fun missions – small job request from users. This makes users earn money or be happy. A users can create a mission like a walk in the park with a dog or smalls errands like groceries. With a small amount which will be regulated/checked/approved by me.

## SYSTEM REQUIREMENTS

Minimum Requirements:

RAM: 1 GB and above

Recommended System: Android 5.0

App Size: 7.83 MB

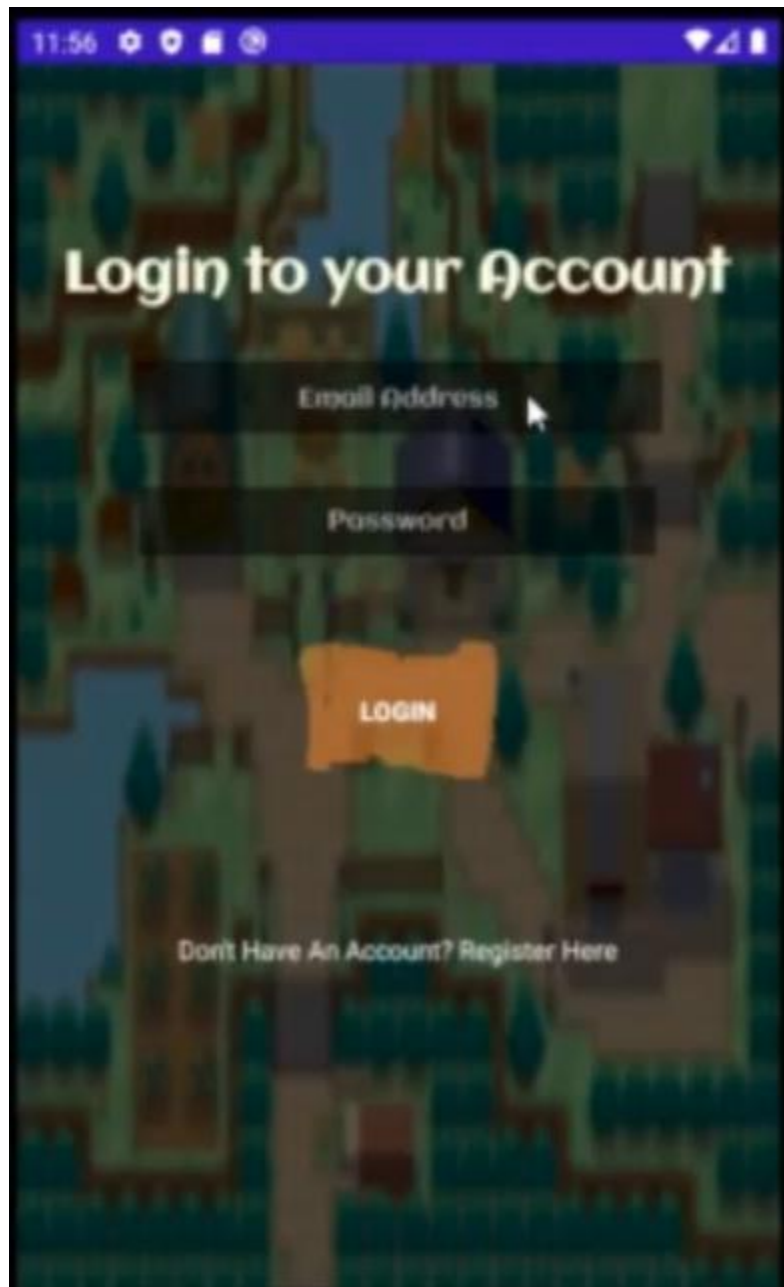

## DESCRIPTION OF APPLICATION FUNCTIONS

### 1. After the Loading Screen

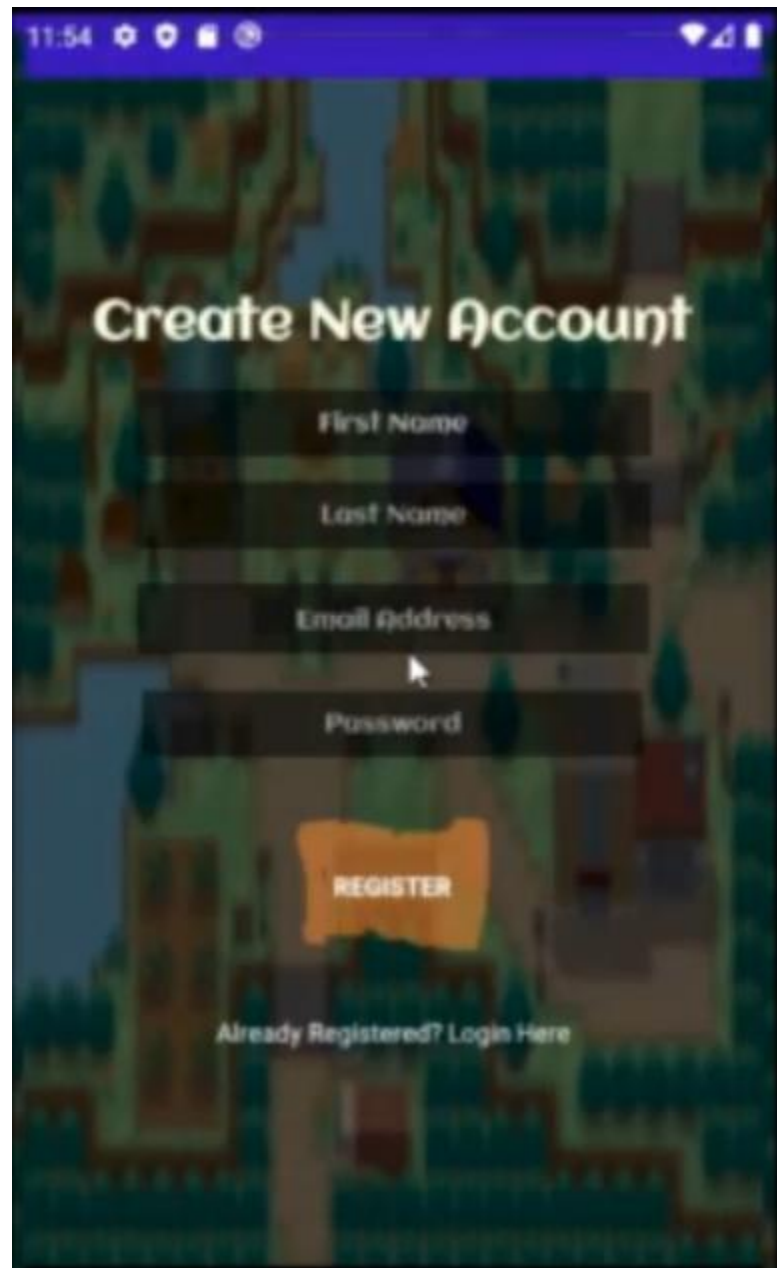

The user is prompt whether to login or register.

## 2. LOGIN

The app asks the user's email address particularly Gmail and a password with minimum of 5 characters.

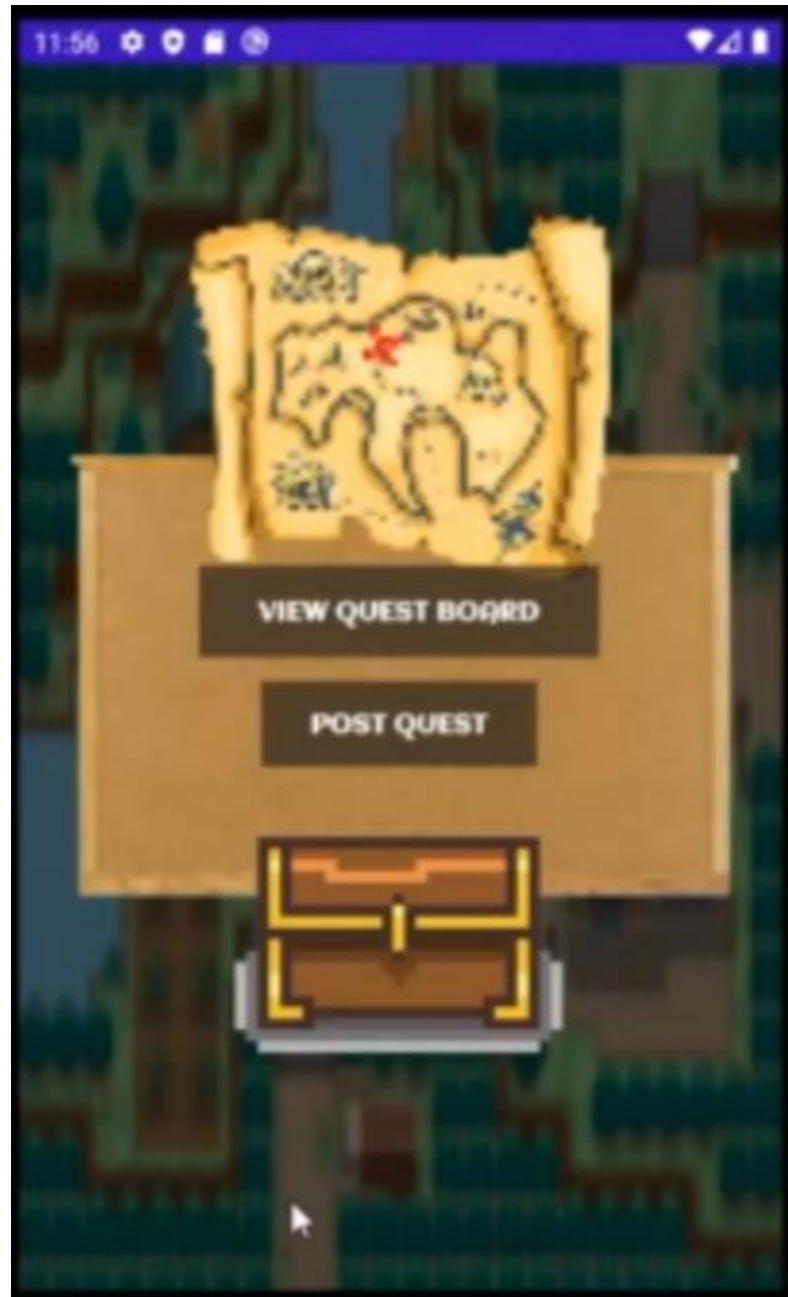

### 3. REGISTER

The screenshot shows a mobile application interface for creating a new account. The background is a dark, pixelated forest scene. At the top, a purple status bar displays the time 11:54 and various icons. The main heading is 'Create New Account' in a large, white, serif font. Below the heading are four input fields with white text labels: 'First Name', 'Last Name', 'Email Address', and 'Password'. A white mouse cursor is positioned over the 'Email Address' field. Below the input fields is a prominent orange button with the word 'REGISTER' in white, uppercase letters. At the bottom of the form, the text 'Already Registered? Login Here' is displayed in a smaller, white font.

If the user hasn't create an account yet, he/she is required to register.

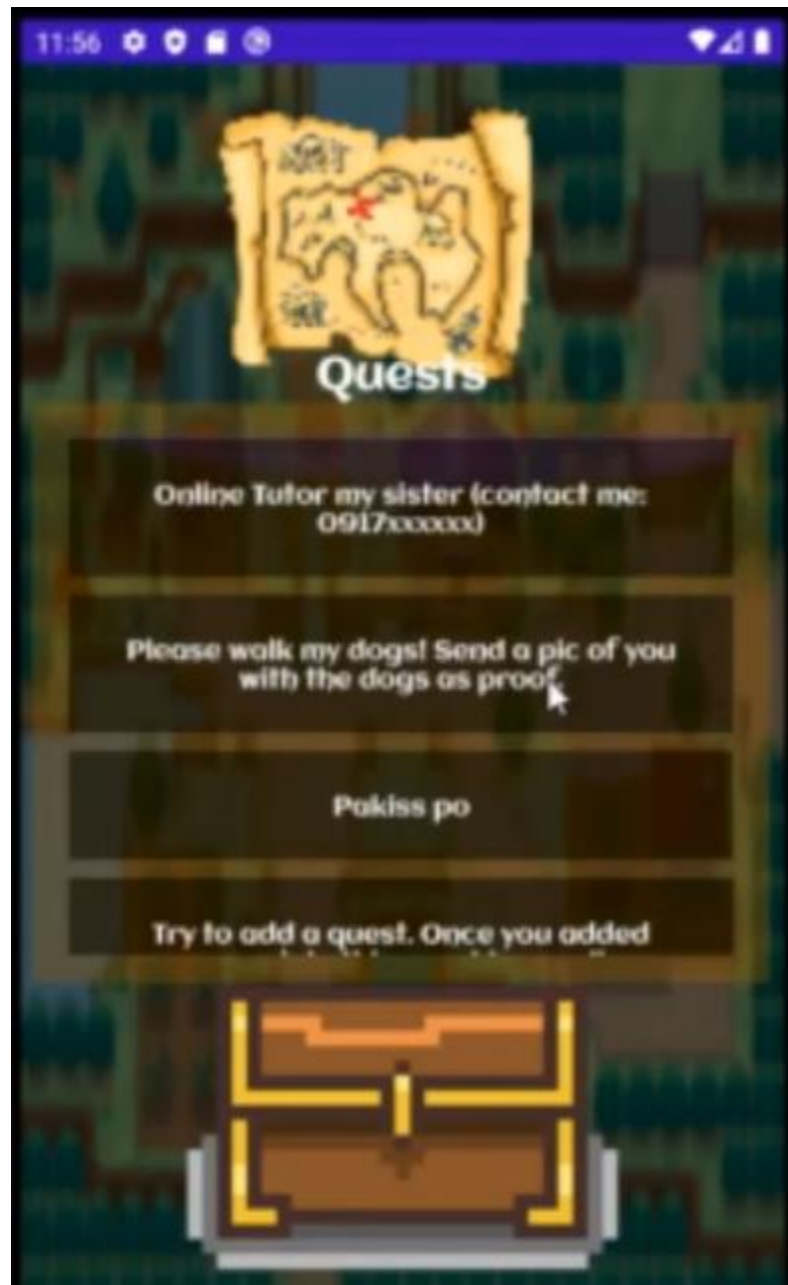

#### 4.After Login

This is the dashboard that prompts the user after login.

The user can view the dashboard or post a quest/errand.

## 5. View Quest

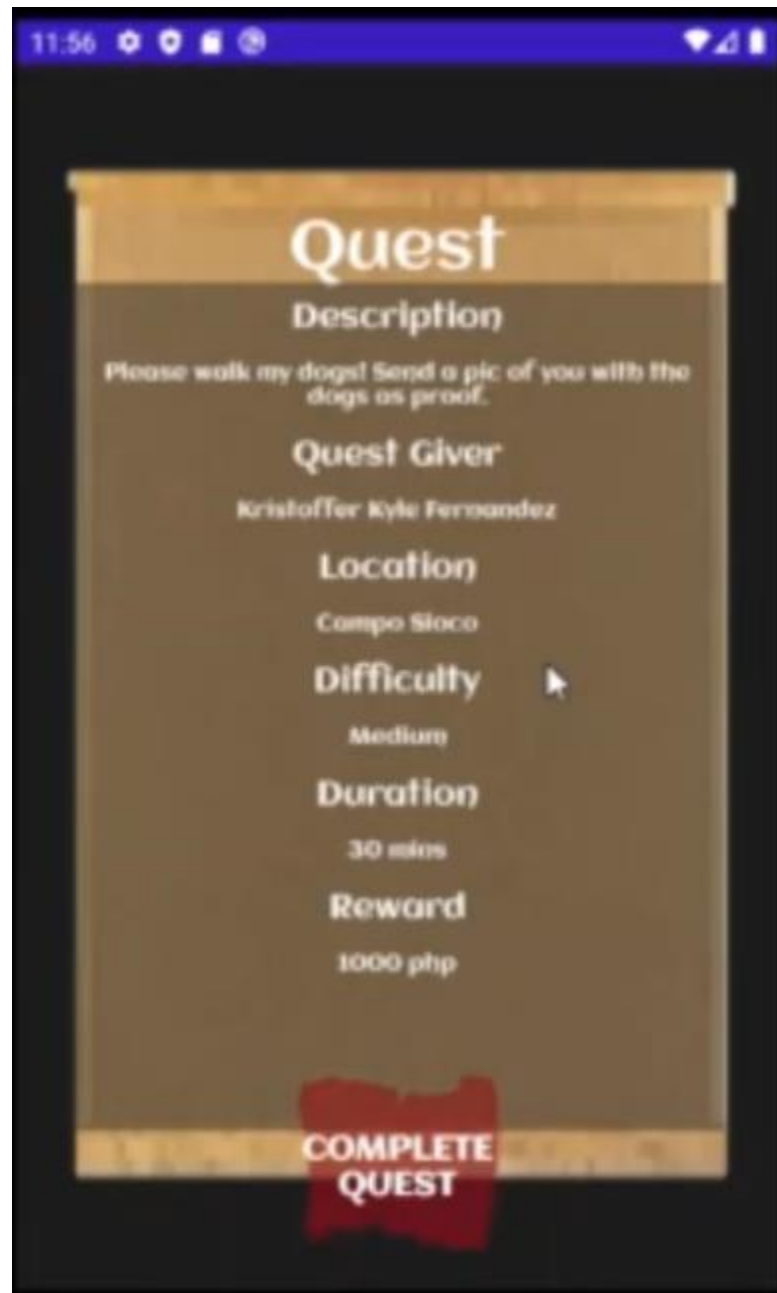

There are already quests made available for the user to select.

With just the short descriptions which can be selected to view more of the detail.

## 6. Select a Quest

The detail of the "Please walk my dogs..." mission is shown

Information about the user who gave the errand, location, difficulty, duration, and rewards is shown.

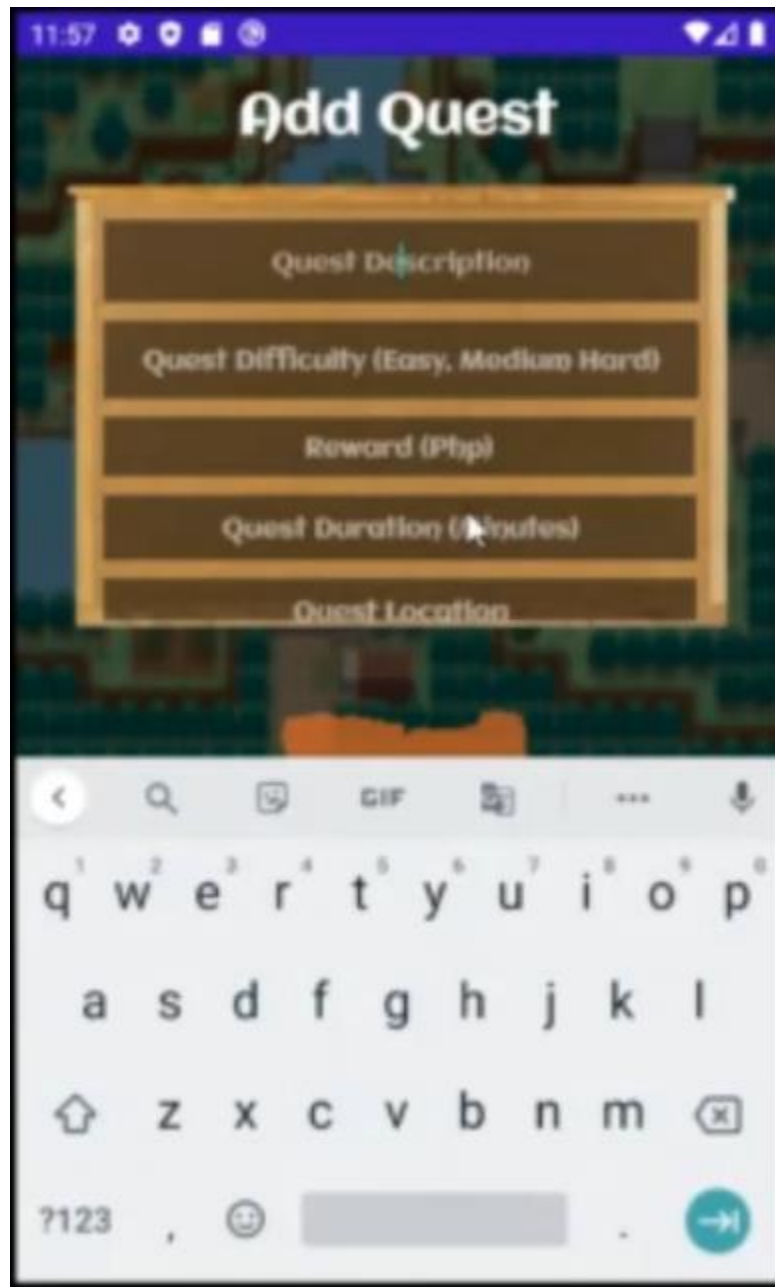

## 7. Authentication

If the user clicks complete quest.

The user is required to upload of his/her image as a verification and security.

## 8. Add Quest

The screenshot shows a mobile application interface with a purple status bar at the top displaying the time 11:57 and various icons. The main title 'Add Quest' is centered at the top in a large, white, serif font. Below the title is a wooden-textured form with five input fields, each with a light green cursor. The fields are labeled: 'Quest Description', 'Quest Difficulty (Easy, Medium Hard)', 'Reward (Php)', 'Quest Duration (Minutes)', and 'Quest Location'. At the bottom of the screen, a standard Android keyboard is visible, showing the letters q, w, e, r, t, y, u, i, o, p on the first row, a, s, d, f, g, h, j, k, l on the second row, and z, x, c, v, b, n, m on the third row, along with navigation and punctuation keys.

The other can be made also, the user can create a quest.

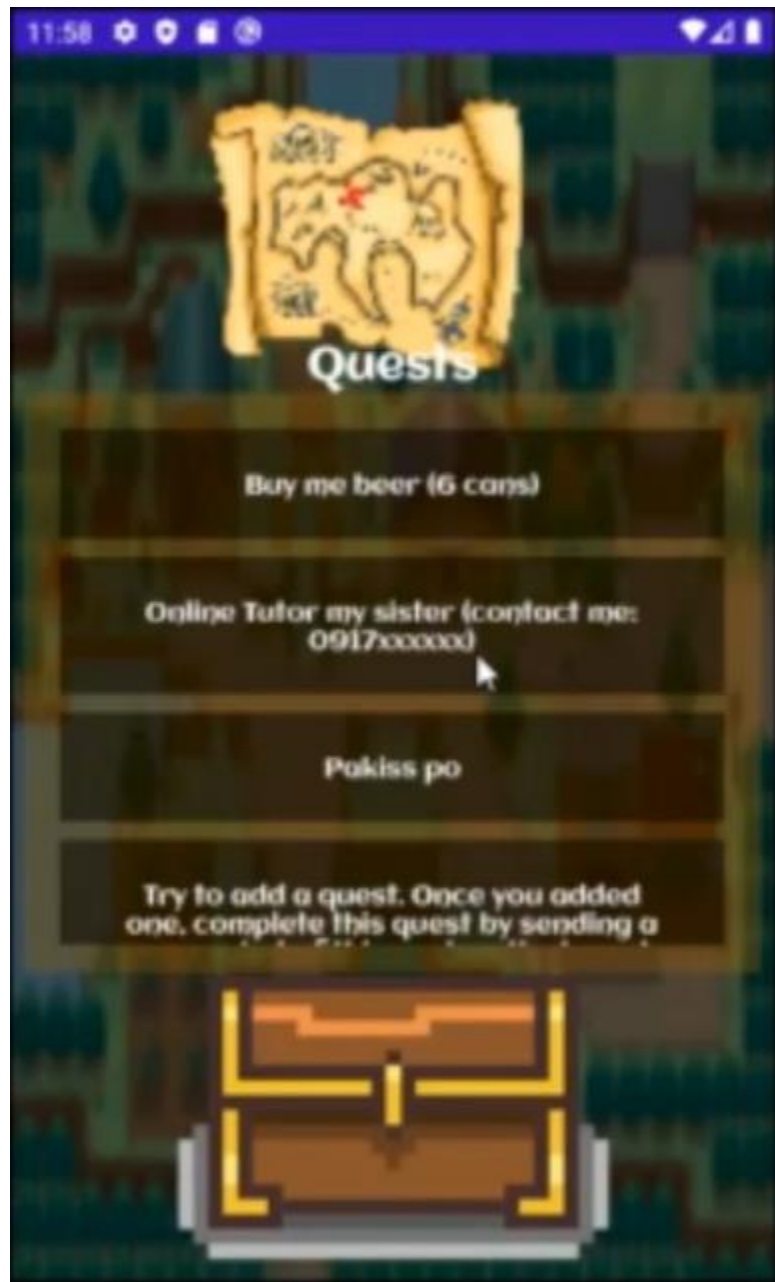

The details needed are: Quest Description, Difficulty, Reward, Duration, and Location.

## 9. Post Quest

Click "POST QUEST" to upload the quest to the View Quest Board

## 10. Updated Quest

1...2...3... Ta- da! Our dashboard has been updated.
